High-Yield Notes

Best For: Conservative investors who want cash flow fast.

- Earn a **fixed 15% annual return**
- Begin receiving **monthly payments ~30** days after funding
- Passive structure: No involvement or management required
- Capital secured by energy assets

“It’s like receiving a paycheck from the energy industry—without drilling a single well.”

Genesis Fund

Best For: Investors who want balanced growth with fund-level protection.

- Participate in a **diversified \$100M energy fund**
- Targeted returns of **20–30%** depending on tranche and project
- **Some tax benefits** (through GP participation structure)
- Safer exposure with a blend of different projects

“Get the power of multiple oil & gas projects in one vehicle—without putting all your eggs in one barrel.”

Direct Unit Investment

Best For: Investors seeking maximum upside, tax benefits, and asset-backed ownership.

- Own a **percentage of an actual producing well**
- Target **60%+ ROI** over time depending on production
- Access to **100% tax write-offs** via active participation
- Distributions begin once revenue flows

“This is the closest you’ll come to owning an oil field—without having to wear boots.”
